

Strengthening Research and Innovation Management (SRIM) II

2023 - 2024 Symposia

LESOTHO | BOTSWANA | ESWATINI

Strengthening Research and Innovation Management (SRIM) II Symposium- Eswatini 19-20 June 2024

Theme: The role of Research and Innovation Management in Accelerating Inclusive Multidisciplinary Research and Promoting Research Impact

The University of Eswatini in partnership with the Department of Research Science Technology and Innovation under the Ministry of ICT (and other National Institutions) will host the Research & Innovation Management Symposia under **Strengthening Research & Innovation Management (SRIM II)** in SADC on the 19th - 20th June 2024 (Happy Valley Hotel). The Country Symposia is an activity under the SRIM II programme envisioned to be a **two-day hybrid** (virtual and in-person) event that brings together key actors across various national and international research and innovation (R&I) ecosystems to engage on key issues, challenges and opportunities within the respective national R&I ecosystems.

The symposium seeks to create awareness on the role of research and innovation management in supporting and accelerating impactful multidisciplinary research endeavours while advocating for the establishment of dedicated research and innovation management offices in national tertiary institutions.

A total of 150 participants will attend the symposium in-person and the remaining will join online. The event will also be live streamed to an online audience through SARIMA and social media platforms of participating institutions. **UNESWA researchers are encouraged to register and partake in this important event.** For registration (*which is complementary*), use the link below:
